

Core Strategy for Chiltern District

Chiltern District Council - Response to the Inspector's Invitation to Respond to the Ministerial Statement Planning for Growth [ID/5]

On 23rd March 2011 the Minister for Decentralisation issued the statement 'Planning for Growth'. This was made a Core Document for the Examination into the Core Strategy for Chiltern District.

In preparing the Core Strategy for Chiltern District appropriate account was taken of all relevant national planning policies and guidance. Section 12 of the Core Strategy 'Retaining Economic Prosperity' takes into account the policy and guidance within Planning Policy Statement 4: Planning for Sustainable Economic Growth (PPS4). It is considered that the ministerial statement 'Planning for Growth' serves to reaffirm the approach to the economy and employment already set out in existing national planning policies. The Council therefore considers that the Core Strategy for Chiltern District is consistent with the aims of this ministerial statement.
